Regarding REACH Candidate list of Substances of Very High Concern (SVHC)

The European Chemical Agency (ECHA) has published the SVHC Candidate List. Once a substance is added to the Candidate List, REACH imposes immediate obligations on manufacturers and importers to declare the substances if present.

REACH Regulation states that manufacturers of products are required to notify their customers of the presence of any Substances of Very High Concern (SVHC) in their products exceeding 0.1% by weight and provide instructions on safe use of the product.

SVHC declaration for Aalborg Portland

An evaluation of the current SVHC chemical list effective September 2023 has been carried out. It has been assessed that none of the SVHC substances are included in Aalborg Portland cements and that limit values have been complied with.

Periodically Aalborg Portland will check the SVHC list for updates and this declaration is valid until the next revision of the EU SVHC list or it is withdrawn by Aalborg Portland. However, this declaration has a limit validity until 31-12-2024.
